3A (29)

My AR Work:

Test code: 231804

Design Description:

There are 3D models of virus representing Covid-19. The background music is a song which is suitable for people to listen to during the pandemic as it is warm and encouraging. The four images added are also bottoms where three of them are linked to a video teaching ways to prevent Covid-19, the website of LeaveHomeSafe and the website of community testing centers respectively, and one of them shows the correct and incorrect methods of wearing masks after being pressed.
